

Position: Project Manager - Precast Concrete Construction

Location: Calgary, Alberta

Job Type: Full-time, In-Office Position

Experience: 5-10 years in precast concrete construction or consulting

Salary: \$90,000 to \$110,000 per year

Kassian Dyck and Associates is a leading construction and engineering firm based in Calgary, Alberta. We specialize in precast concrete construction and have a reputation for delivering high-quality projects on time and within budget. We are seeking an experienced Project Manager to join our team and help us continue to deliver successful projects for our clients.

We are seeking an experienced Project Manager to join our team in Calgary, Alberta. The successful candidate will have 5-10 years of experience in precast concrete construction, with a preference for practical on-site experience. The candidate must also be willing to travel to different project locations as required. Furthermore, experience in use of BIM coordination software such as Navisworks, Trimble Connect will be a valuable asset.

Key Responsibilities:

- Develop and implement project plans and schedules to meet the needs of the client and the company
- Coordinate with internal teams and external stakeholders to ensure the successful delivery of projects
- Monitor project progress and make adjustments as needed to ensure project goals are met
- Communicate effectively with all project stakeholders, including clients, subcontractors, and team members
- Ensure compliance with all safety and regulatory requirements
- Manage project budgets and schedules, and report on project progress to company leadership
- Manage and mentor project teams, provide guidance, and delegate tasks effectively
- Willingness and ability to travel to project locations as required
- Experience in using BIM coordination software such as Navisworks, Trimble Connect
- Ability to effectively use models during meetings to help develop solutions for project issues

Qualifications:

- 5-10 years of experience in precast concrete construction, with a preference for practical on-site experience
- Proven track record of delivering successful projects on time and within budget

- Strong leadership and communication skills
- Experience with project management software and tools, specifically BIM coordination softwares such as Navisworks, Trimble Connect, and/or BIM360.
- Bachelor's degree in construction management or related field
- PMP certification is a plus
- Ability to travel to different project locations as required

Please apply with your CV and a cover letter to join our team at Kassian Dyck and Associates.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, or any other characteristic protected by law.

Please submit your resume and cover letter, detailing your qualifications and experience, to resumes@kdassociates.com and mention the Precast Project Manager position in the subject line.
